

Neurology Clinic at LOROS

We hope to answer your concerns, but if you have any more questions please ask a member of staff

The neurology clinic is held every eight weeks at LOROS in partnership with the University Hospitals of Leicester NHS Trust (UHL) for patients who have advanced terminal neurological conditions such as Progressive Supranuclear Palsy (PSP) and Multi System Atrophy (MSA).

The neurology multi-disciplinary team (MDT) includes specialist doctors, specialist nurses and occupational therapists.

We work closely with staff from other organisations such as speech and language therapists, dieticians and social workers.

Part of being cared for by the multidisciplinary team means that information about you may be discussed within the teams to ensure the best possible plan of care for you. It is the policy at LOROS to copy all clinical letters to patients. Please let a member of the team know if you do not wish to receive a copy of these letters.

How can attending the clinic help me?

Help may include:

- Review of your medication
- Practical advice on managing symptoms
- Arranging the provision of equipment at home, for example a stairlift
- Discussion about the future and planning ahead
- Discussion about support and services available for you and your family

To help address your issues and concerns you may be referred to other services within the hospice.

Your GP may refer you if you are having symptoms that are difficult to control and you would like to talk about planning your future care. Your clinic appointment may last up to 45 minutes and you may be seen by any member of the MDT who will talk through current issues and concerns and help you with them.
