

Legado

The digital filing cabinet for your most important life documents.

Legado is the leading digital life planning platform to help you securely organise, store and share your most important life information and documents in one secure, accessible digital filing cabinet.

Use Legado's
digital vault
to become
Life Ready.

Helping you at every stage of your life journey.

Legado exists to help you get everything important organised once and for all – Wills, Life Insurance policies, pension statements, pet information, funeral plans and so much more.

Major Life Events

Whether you have a newborn, just retiring or planning for end-of-life, never too soon (or late) to start digitising and organising your family's information.

Natural Disasters

The last thing you want if you're evacuating ahead of a fire, flood, or any other sort of emergency is to be hunting for your passport or insurance documents.

Caregiving

Legado makes sure everything related to your loved one is in one place and always securely accessible, so everyone involved in your loved one's care stays up to date.

At Your Fingertips

With Legado, your identifications, health documents, passwords, and more are always secure and accessible anytime and from any device.

Start Planning Now

We have produced a library of resources which you can access within the application, giving you peace of mind knowing you are on the right track.

How Legado Works.

1. Scanning Simplified

"Point and shoot" to seamlessly scan, edit, and store important documents on-the-go with the sites built-in mobile scanner.

2. Mobile Information

Our website is fully optimised for mobile devices meaning you always have access to your information, whether you're in the emergency room or stuck at the airport.

3. Controlled Access

Before a Nominee gets access to your Legado vault, you select which categories you want your Nominee to view or edit. This can be changed at anytime.

4. Industry Leading Security

We don't stop at military grade AES-256 encryption. No matter what device you use, multiple layers of privacy and security protocols constantly monitor and safeguard your information.

More than a Digital Vault.

As well as the safest place for all of your important documentation, you can share your information and documents with friends and family to make sure they have everything they need in the event of an emergency.

Resources

We have a series of original content and guides that work in the application to help people at any stage of their life journey.

Interactive Tools

Our interactive tools help ensure you are prepared for whatever life throws at you.

Help and Support

Get instant answers for your questions in our comprehensive FAQ, email our expert support team or call our customer success pro's. We have you covered.

Sharing and Collaboration

We know managing your family's information is a team sport. As such you can control who has access to your most private information using our "Nominee" feature.

Keeping your information secure.

It's the perfect blend of convenience and security, all in one impenetrable package. We designed Legado to protect you wherever you go.

Protecting your data

Every document uploaded to Legado is encrypted and stored in secure servers maintained by Microsoft Azure. Microsoft is an industry leader, offering the most comprehensive set of compliance offerings of any cloud service provider. With 53 major certifications and attestations: your data's safe with us.

Staying the best

We continuously work with industry experts and data protection authorities to implement robust privacy protections ensuring our security is as strong as it possibly can be.

Protecting your account

We use two-factor authentication. That means even if someone discovers your password, they won't be able to access your Legado account.

Data protection and privacy

We're committed to complying with the European Union's General Data Protection Regulation.

What our clients have to say.

“ When the inevitable happens, the last thing my family should be doing is worrying or being hassled about paperwork. Legado eloquently solves that problem. ”

“ I've never been good with technology. Legado's system is great. Sign-up was simple, the user-interface is very easy to use and I can work with my advisors to ensure everything organised should something happen to me. ”

“ All my paperwork has been stuffed into boxes for years. Now it is online and accessible to all the important people in my life. My wife also knows what to do in an emergency. ”
