Raffle

LOROS Lotteries Limited run bi-annual raffles.

Carn is the raffle company used by LOROS Lotteries Limited. The draw is completed through Carn's DrawMaster software. At the close draw stage (end of fast replay and at the end of the raffle on the draw day), all of the tickets that are eligible to go into the draw are selected. Each eligible ticket is saved into a separate "Draw" file and allocated a random position. Once all of the tickets are in the separate "Draw" file, another random number is generated and the position is reallocated to match this number.
