

Thinking Ahead - Exploring and Understanding Experiences and Decisions in End of Life Care

We are a team of researchers at LOROS Hospice in Leicester. We would like to speak to patients with serious illness from Black, Asian and other ethnic communities in Leicester, Leicestershire, Nottingham and Nottinghamshire. The information we collect will help us to improve the training that doctors and nurses have and the care they provide for patients and their families at the end of life.

If you would like information in a language other than English then this is available in a video format on the website
